Alaska Broadcasters Association
Internship Interest Form

Your information will be made available to both TV and Radio stations. Stations receive a \$1,000 grant from the ABA, as a member benefit, to promote careers in the Broadcasting Industry and to help defray payroll expenses. The monies go directly to the station.

Per hour wage is negotiable with station and determined by the station according to experience and level of job responsibilities. It is the station's decision whether to terminate or continue employment after the grant is finished. This form may be taken directly to your station of choice as part of an active job search.

The ABA and its member stations supports and encourages
Equal Opportunity Employment.
